

Everything About Sandblasting

SK 1250C

Saykar has been manufacturing surface treatment machines working with pressurised air since 2003. The design and principles of operation of these machines are entirely owned by Saykar.

SK 1250C Cyclone Sandblasting Machine is compact designed for sandblasting parts up to 110cm long. This sandblasting machine is equipped with a cyclone system and suitable for general purpose sandblasting operations. It has an automatic self-cleaning filter system.

Sandblasting pressure and spray quantity can be adjusted. It can be used for cleaning, roughening and polishing purposes of wide range of products like weapon, rim, marble, glass, injection mold, medical parts etc.

Cyclone machines are ideal for sensitive processes with the possibility of separating the dust from the sand.

Compact Design and Original Working Principle

Adjustable Sandblasting Pressure

JET-PULSE Filter System

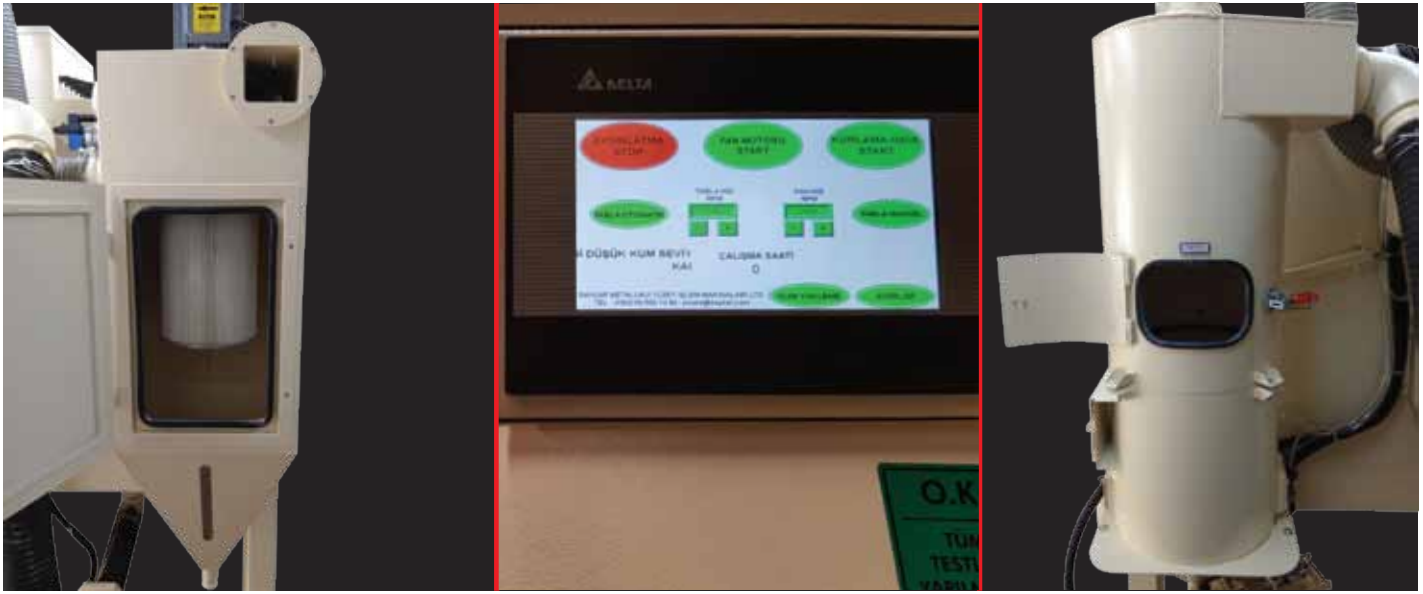

High Operation Capacity

Cyclone System Abrasive Separation

Abrasive Quantity Sensor

SK 1250C

Cyclone Sandblasting Machine

SK 1250C Cyclone Sandblasting Machine is our own production like our all other machines; high volume capacity sandblasting machine. It is motor protected and has adjustable pressure and phase display. This Cyclone Sandblasting Machine with wide cabinet dimensions is suitable for sandblasting small and medium parts.

Standard Features

- Cabinet External Dimensions
- Cabinet Internal Dimensions
- Machine External Dimensions (With Loading Table)
- Turntable Diameter
- Maximum Material Diameter
- Turntable Operation Capacity
- Machine Loading Capacity
- Ground Area of Machine Covers
- Cover Opening Distance
- Lighting
- Total Electric Power
- Air Consumption
- Sand Capacity
- Total Weight
- Noise Level

Explanation
