

Everything About Sandblasting

SKP 40

Saykar has been manufacturing surface treatment machines working with pressurised air since 2003. The design and principles of operation of these machines are entirely owned by Saykar.

SKP 40 Portable Sandblasting Machine; It offers a wide range of application areas, various types of abrasives usage, easy transportability and low cost of establishment. Reasons of why our portable sandblasting machine SKP 40 is preferred; Easy installation with only air connection, low air consumption, easy storage and cleaning due of its small dimensions. This machine can spray most of abrasives due to its strong sandblasting gun.
